## THE POWER OF DEMOGRAPHY The Case of Switzerland

Organised by the WDA Forum

**WORKING ENVIRONMENT**  
**RETIREMENT & PENSIONS**  
**FINANCIAL MARKETS**  
**HEALTH**  
**COMPETITIVENESS**

A group of prominent individuals from the business community, academia, politics, NGOs, NPOs, the media and civil society will meet in St. Gallen between August 26 – 28, 2013 at the 9th World Demographic & Ageing Forum to discuss „The Power of Demography – The Case of Switzerland“.

The WDA Forum, an interdisciplinary organization addressing demographic and ageing issues, has identified five key areas: the working environment, retirement and pensions, financial markets, health and competitiveness. These will each be the subject of discussion for one half day during the Forum and will be dealt with in lectures, panel discussions and workshops.

Speakers, panelists and Forum participants will have an opportunity to grapple with the trends, consequences and challenges posed by demographic change and to develop joint proposals that would ensure that Switzerland remains competitive and that its development is sustainable.

We look forward to your participation in an interesting action oriented interdisciplinary dialogue.

### **Reserve August 26 – 28, 2013 for the Forum**

The number of participants is limited so we suggest that you register for the Forum as soon as possible.

Please note that the WDA Forum 2013 will be held in German and French.
